Faridabad, Haryana

EDUCATION

Amity University

Bachelor of Technology in Computer Science and Engineering

- CGPA: 8/10.0

Greater Noida, Uttar Pradesh

2022 – 2026

TECHNICAL SKILLS

Programming Languages: JavaScript, C++, Python, SQL

Web Development: HTML, CSS, TailwindCSS, React.js, Express.js, REST APIs

Databases: MySQL, MongoDB, PostgreSQL

Tools: Docker, Git, GitHub, Postman, Supabase

Design: UI/UX, Figma

EXPERIENCE

JKC Software LLP

Remote

Web Development Intern – Frontend Team Lead

May 2025 – Jul 2025

- Led frontend development for real-world applications including a CRM system using React.js, Axios, and CSS Modules.
- Built reusable, modular UI components and applied DRY, SOLID, and component-based architecture principles.
- Managed team workflow and ensured clean folder structure, state management with hooks, and performance-optimized rendering.
- Worked in Agile sprints, integrated APIs with Postman, styled consistent UIs, and mentored peers on clean coding and UI/UX standards.

Dynamic Pest and Rodent Control (DPRC)

Full Stack Developer Intern

Aug 2025 – Nov 2025

- Developed a role-based web application to manage customers, pest control services, technician tasks, and job tracking.
- Designed structured workflows for service scheduling, complaint handling, and operational monitoring.
- Implemented role-based views (Admin / Staff / Customer) to separate operations, tracking, and reporting.
- Integrated frontend with backend-ready APIs for real-time updates, data validation, and system expansion.

PROJECTS

Event Flow | Student Event Management System | Next.js

2025

- Developed a web app for students to view, host, and join events with real-time updates.
- Implemented event request flow where students submit proposals for faculty approval.
- Built an admin panel for faculty to approve/disapprove events before publishing.
- Enabled role-based access and event tracking to ensure a seamless experience for students and faculty.

Legal Elevate | REST API | Node.js, Express, MongoDB

2025

- Built a secure Blog website with REST API and JWT authentication (login/signup) using Node.js, Express, and MongoDB.
- Created protected blog routes (create, update, delete, retrieve) using localStorage JWT (no Bearer prefix).
- Added category-based filtering for Legal Updates, Landmark Judgements, and Legal Maxims.
- Standardized API responses and integrated Axios with a 6-second timeout for frontend communication.

ACHIEVEMENTS

1st Place – Amity E-Hackathon (2025): Led a team to design and present an innovative technical solution, outperforming multiple competing teams.

LICENSES & CERTIFICATIONS

Body Language: Key to Professional Success | IIT Roorkee (NPTEL) | Apr 2024

Networking Basics | Cisco | Apr 2025
